

⚠️ WARNING!

READ ALL DIRECTIONS AND CAUTIONS BEFORE USING THIS PRODUCT. USE ONLY AS DIRECTED.

- 🛡️ **PRODUCT IS CORROSIVE:** ALWAYS COVER EXPOSED SKIN USING PROTECTIVE GLOVES AND CLOTHING. CONTACT WITH SKIN CAN CAUSE SEVERE CHEMICAL BURNS. IN CASE OF CONTACT WITH SKIN, RINSE SKIN UNDER COLD WATER IMMEDIATELY. IF IRRITATION PERSISTS, CONTACT A PHYSICIAN. WASH CLOTHING AFTER USE. WASH HANDS THOROUGHLY AFTER USE.
- 🚫 **DON'T MIX PRODUCT WITH ACID, NITROGEN CONTAINING COMPOUNDS, AMMONIA.**
- 🔥 **MIXING WITH ANY OTHER CHEMICALS MAY CAUSE COMBUSTION.**
- 🚫 **NO SMOKING** – KEEP AWAY FROM SPARKS, OPEN FLAMES, HEAT & HOT SURFACES.
- 🚫 **DO NOT EAT OR DRINK WHEN USING THIS PRODUCT** - DO NOT INGEST – DO NOT EAT OR DRINK THIS PRODUCT – IF SWALLOWED, RINSE MOUTH WITH WATER AND DON'T INDUCE VOMITING. GET MEDICAL HELP OR CALL THE POISON CONTROL CENTER HOTLINE AT 800-222-1212.
- 🚫 **AVOID CONTACT WITH EYES** – ALWAYS WEAR SAFETY GOGGLES OR GLASSES WHEN MIXING OR USING THIS PRODUCT. IF IN EYES, RINSE WITH COLD WATER THOROUGHLY AND IF IRRITATION PERSISTS, CONTACT A PHYSICIAN.
- 👤 **DO NOT INHALE THIS PRODUCT** – USE FACE PROTECTION / RESPIRATOR WHEN OPENING PACKAGE, POURING OR MIXING IN THE BOTTLE AND SPRAYING.
- 🏠 **USE ONLY IN A WELL-VENTILATED AREA.** IN CASE THE PRODUCT IS INHALED, MOVE THE PERSON TO FRESH AIR IMMEDIATELY. IF PERSON IS NOT BREATHING, CALL 911 EMERGENCY / AMBULANCE AND CALL A PHYSICIAN OR POISON CONTROL CENTER HOTLINE AT 800-222-1212 FOR TREATMENT ADVICE.
- 👶 **KEEP OUT OF REACH OF CHILDREN.**

CONTAINS: CALCIUM HYPOCHLORITE, SULFURIC ACID, MONO-C10-16-ALKYL ESTERS, SODIUM SALT.

⚠️ **For Chemical Emergencies (Spill, Fire, or Accident):**
Call Chemtrec 24-Hour Emergency Hotline at 800-424-9300 (North America).
Outside USA (1+) 703-527-3887

🛠️ FIRST AID

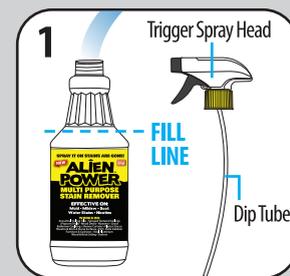

- IF SWALLOWED:** Rinse mouth. Do NOT induce vomiting.
- IF ON SKIN:** Take off immediately all contaminated clothing. Immediately rinse with water for several minutes. Wash contaminated clothing before reusing.
- IF INHALED:** Remove person to fresh air and keep them comfortable for breathing.
- IF IN EYES:** Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get emergency medical help immediately.

⚠️ CAUTION!

- 🛡️ **COVER ALL AREAS NOT UNDERGOING TREATMENT WITH PLASTIC.** PRODUCT WILL STAIN / BLEACH FABRICS, CLOTHING, AND FURNITURE IF NOT COVERED. PRODUCT MAY DAMAGE GRASS AND PLANTS IF NOT COVERED.
- 🚫 **DO NOT USE ON OIL STAINS, METALS OR RUST.** IN CASE OF CONTACT ON SURFACE, RINSE IMMEDIATELY WITH WATER.
- 🔍 **ALWAYS TEST FOR COLORFASTNESS BEFORE USE ON VINYL, PAINTED SURFACES OR WALLPAPER** – SPRAY SMALL HIDDEN AREA AND WAIT 5 MINUTES THEN CHECK.
- 🚫 **DO NOT USE PRODUCT NEAR FOOD SERVING OR PREPARATION AREAS, NEAR FOOD, NEAR PETS, FISH AQUARIUMS.**
- ♻️ **DISPOSE ACCORDING TO LOCAL, STATE, FEDERAL REGULATIONS.**

DIRECTIONS

For best results, use in a well-ventilated area. Tip: Using a brush or roller can help reduce odors. Do not use near food, pets, or fish.

PREPARE THE SOLUTION:

Fill a **24 oz. bottle** with warm water, leaving approx. **2 inches from the top**.

MIX: Ensure Dip Tube is attached to the Trigger Spray Head. Insert the Trigger Spray Head with Dip Tube into the bottle. Shake for **30 seconds**, and let the solution **activate for 5-10 minutes**. Note: Shaking is only needed during the first mix.

APPLY TO STAINED AREA:

Hold sprayer **5-8 inches** away, spray generously, and let sit for **5-10 minutes**.

ADD THE PRODUCT:

Cut a corner of the packet for easy pouring and carefully add the powder to the bottle. **Avoid inhaling dust.**

TEST THE SPRAYER: Turn spray nozzle to “Mist” position. Test the spray function in a **sink** to ensure proper flow. Avoid overspray, as it may **stain or bleach fabrics and surfaces**.

6

EVALUATE RESULTS: If stains persist, repeat the process. **For heavy stains, multiple applications may be required.** Allow the solution to **fully dry between applications** for best results.

For Chemical Emergencies (Spill, Fire, or Accident): Call Chemtrec 24-Hour Emergency Hotline at 1-800-424-9300

✨ CLEANING TIPS

- 🏠 If working indoors, try to keep the space as well-ventilated as possible, open windows or run exhaust fans or hoods. If you're sensitive to smells, use a brush or roller, use a brush or roller to reduce odor
- 🏠 For stains located above you, such as on ceilings, avoid positioning yourself directly below the application spot. Reach forward and spray while keeping a safe distance.

HOW TO CLEAN STAINS & SURFACES

🏠 **Exterior Areas** (e.g., Vinyl, Wood Shutters, Wood Siding, Aluminum*, Chrome*, Stucco & Masonry, Stone, Concrete, Bricks, Patio Paver):

💡 **Tip!** To enhance effectiveness of Alien Power Stain Remover, rinsing the surface to be treated with water beforehand and letting it dry for 24 hours before applying the Alien Power.

Apply Alien Power using a sprayer, brush, or roller – avoid wiping it off. For best performance, apply under direct sunlight. Allow 10 minutes before inspecting results. If necessary, repeat, leaving a 10-minute gap between applications. Once the stains have disappeared, rinse thoroughly with a hose.

*On chrome or metallic surfaces, let Alien Power sit for a full 15 minutes before rinsing or wiping it off with water.

👉 **Walls and Ceilings (Painted):**

💡 **Tip!** Begin with a patch test in an unnoticeable spot to confirm no discoloration.

Proceed with application via spray, brush, or roller. Always shield nearby items such as flooring, carpets, and furniture. Wait 10 minutes, then wipe down using any clean moist cloth or sponge.

🏠 **Vinyl Surfaces** (Patio Furniture Cushions, Umbrellas, Tarps and Cover):

To remove stains or spills like food, red wine, natural stains, first test on a hidden area for color stability. If no damage to the surface area is seen, apply with a sprayer, brush, or roller. Use in direct sunlight for maximum impact. After 10 minutes, either rinse with a hose or wipe down with damp clean cloth. Stubborn spots may need more than one treatment. Allow surfaces to dry entirely before applying again.

🏠 **Plastics – (Resins, Fiberglass, PVC) Fixtures, Fences, Furniture:**

💡 **Tip!** Begin by rinsing to clear off debris, then let the area dry for a full day.

Apply Alien Power using a sprayer or brush – do not wipe it off. Apply under direct sunlight if possible and rinse with a hose after 10 minutes. Stubborn spots may need more than one treatment. Allow surfaces to dry entirely before applying again.

🏠 **Areas with Tiles, Pavers, Grout, and Caulk (Indoor & Outdoor):**

💡 **Tip!** For tough grime on grout, scrub grout lines with a stiff brush or sponge to break up calcium or soap deposits.

To get rid of mildew, mineral stains, and similar buildup, apply Alien Power by spraying or using a sponge. Leave on for 10 minutes, then check the results. Re-apply if needed. Multiple treatments may be required, especially in bathroom areas. Follow up by wiping or rinsing with clean water.

🏠 **Walls, Ceilings, and Panels with Texture (incl. Popcorn, Knockdown, Stucco, Acoustic, or other Ceiling Panel Types):**

💡 **Tip!** For treating discolorations, first safeguard nearby surfaces like curtains, furniture, or trim to prevent damage.

Use spray, brush, or roller for application, taking care not to oversaturate to avoid drips. Do not stand beneath the area being treated. Wait 10 minutes before assessing. Avoid rubbing or wiping textured areas—spraying is preferred. If dealing with acoustic tiles, remove them for outdoor treatment when possible and allow sunlight to speed up drying. Spray directly on the stain and wait 10 minutes. Repeat as necessary **without** wiping or scrubbing.

🏠 **Composite materials and Pressure-Treated Wood (Decks, Beams, Roof Overhang):**

💡 **Tip!** For best results, pre-rinse and allow to dry for a full day before use.

Apply Alien Power with a brush, roller, or sprayer—do not wipe away. Direct sunlight boosts performance. Wait 10 minutes, then rinse thoroughly with clean water.

🏠 **Household Large Appliances (Dishwashers, Refrigerator, Freezer, Washing Machine, and Dryer):**

💡 **Tip!** Washing Machines and Dishwashers: Add half of a 1oz packet of Alien Power to an empty unit once a month to maintain freshness, reduce various deposits, and odors.

💡 **Tip!** Front-Load Washer Seals: Cleaning the rubber gasket with Alien Power helps eliminate unpleasant mildew smells.

To clean your dishwasher, washing machine and dryer, run a regular wash cycle, then a rinse-only cycle.

For refrigerator, freezer, and rubber seals: Use a clean colorfast cloth to apply Alien Power directly. Let it sit 10 minutes before checking results. Rinse thoroughly with mild soap and water using a fresh clean cloth.

 **Recreational Vehicles & Equipment (Campers, RV, Boats, Jet Ski, Carts, ATV, Coolers):**

 **Tip!** Always perform a spot test for colorfastness first.

Clear loose dirt first and allow surfaces to dry before application. Alien Power is safe for use on the following materials: water inlets, PVC pipes & fittings, rubber or Fiberglass roofs, showers, bathrooms, vinyl curtains and awnings, canvas tents, and material coverings such as Tyvek® or other Polyolefin materials, plastic coolers, plastic tarps.

 **STORAGE**

- Keep product sealed in its original packaging and store in a cool (below 95°F / 35°C), dry, and well-ventilated area.
- Keep away from flammable or combustible materials.
- Do not store or allow contact with pool treatment products, acids, organic materials, nitrogen-based compounds, dry powder fire extinguishers, oxidizers, or corrosive liquids.

WHEN THE CLEANING SOLUTION IS FINISHED

1. Flush the trigger sprayer head and dip tube with clean water after you have finished using the sprayer.
2. To do this, remove the spray head from the bottle, gently pull out the dip tube to separate it, and rinse and flush both the spray head and dip tube thoroughly.
3. Reinsert the dip tube into the spray head and then squeeze the trigger 5-6 times to empty the contents from the spray head.
4. Reattach the spray head with dip tube to the bottle.

 **FAQ**

How should I handle a clogged sprayer?

Detach the spray head from the bottle, gently remove the dip tube, and thoroughly rinse both components with clean water. Once clean, reinsert the dip tube into the spray head and reattach the spray head on the bottle.

Once mixed with water, how long does Alien Spray remain effective?

Please follow the recommended storage guidelines. When stored appropriately, Alien Power remains effective for approximately six months.

How quickly does Alien Power start working?

Alien Power begins to act immediately once applied. Depending on the age and severity of the stain, multiple applications may be required for desired results.

Is it necessary to rinse all surfaces after applying Alien Power?

Rinsing is required only on hard surfaces. It is not necessary to rinse painted surfaces or ceiling tiles after application. Please see "How To Clean Specific Surfaces & Stains" section.

Will using Alien Power cause discoloration?

Alien Power may cause discoloration. It is recommended to test the product on a small, inconspicuous area first to verify colorfastness.

Is Alien Power suitable for use on countertops used for food preparation?

No – Alien Power should not be used on countertops or surfaces intended for food preparation.

Can Alien Power be safely applied to natural stone such as marble?

Yes – Alien Power can be applied to marble and other natural stone surfaces. Follow the application instructions, allow it to sit for 10 minutes, then wipe the area with a damp, colorfast cloth to remove any residue.

Is Alien Power effective for use in laundry?

No – Alien Power is not suitable for laundry and may damage or stain non-vinyl fabrics.

Can Alien Power be used to clean windows?

No – Alien Power is not intended for use on glass or windows.

What should I do if Alien Power accidentally gets on plants during cleaning?

If contact occurs, thoroughly rinse the plants with water to dilute and remove any residue.

WORKS GREAT ON:

Vinyl Chairs

Popcorn Ceilings

Tile Ceilings

Ceramics
